

PROJECT DEMO PLANNING

Team ID:	SWTID-2026-6203
Project Name:	Script-Controlled ACL – Restrict Record Access Based on Field Value

Project Demo Planning

S.No	Demo Section	Description	Duration (mins)	Responsible Member
1	Introduction & Problem Statement	Introduce the project and explain why record access needs to be restricted based on a field value in ServiceNow.	2	R. Megha Shree
2	Project Objective & Scope	Explain the objective: secure the Institution Details table using roles and script-controlled ACLs for READ, CREATE, WRITE, and DELETE operations.	2	C. Manoranjitham
3	Solution Overview	Describe the custom table u_institution_details, its fields, branch choices (ECE, EEE, CSE), and the custom roles bb1–bb4.	2	M. Manjula
4	Live Feature Demonstration	Demonstrate role-based record access and the READ, CREATE, WRITE, and DELETE ACL behavior using test users and an admin account.	5	P. Nisha
5	Results & Benefits	Explain how the ACL setup limits unauthorized viewing, creation, editing, and deletion, and summarize the observed test results.	2	P. Sivabharathy
6	Q&A; Session	Answer questions about the project, ACL scripts, role requirements, branch-based access, and testing.	2	All Team Members

Demo Flow Summary

Introduction → Project objective → Table and role overview → Live ACL demonstration → Results and benefits → Q&A.
